CableTrunk

Accessory for fire detector cable trunking

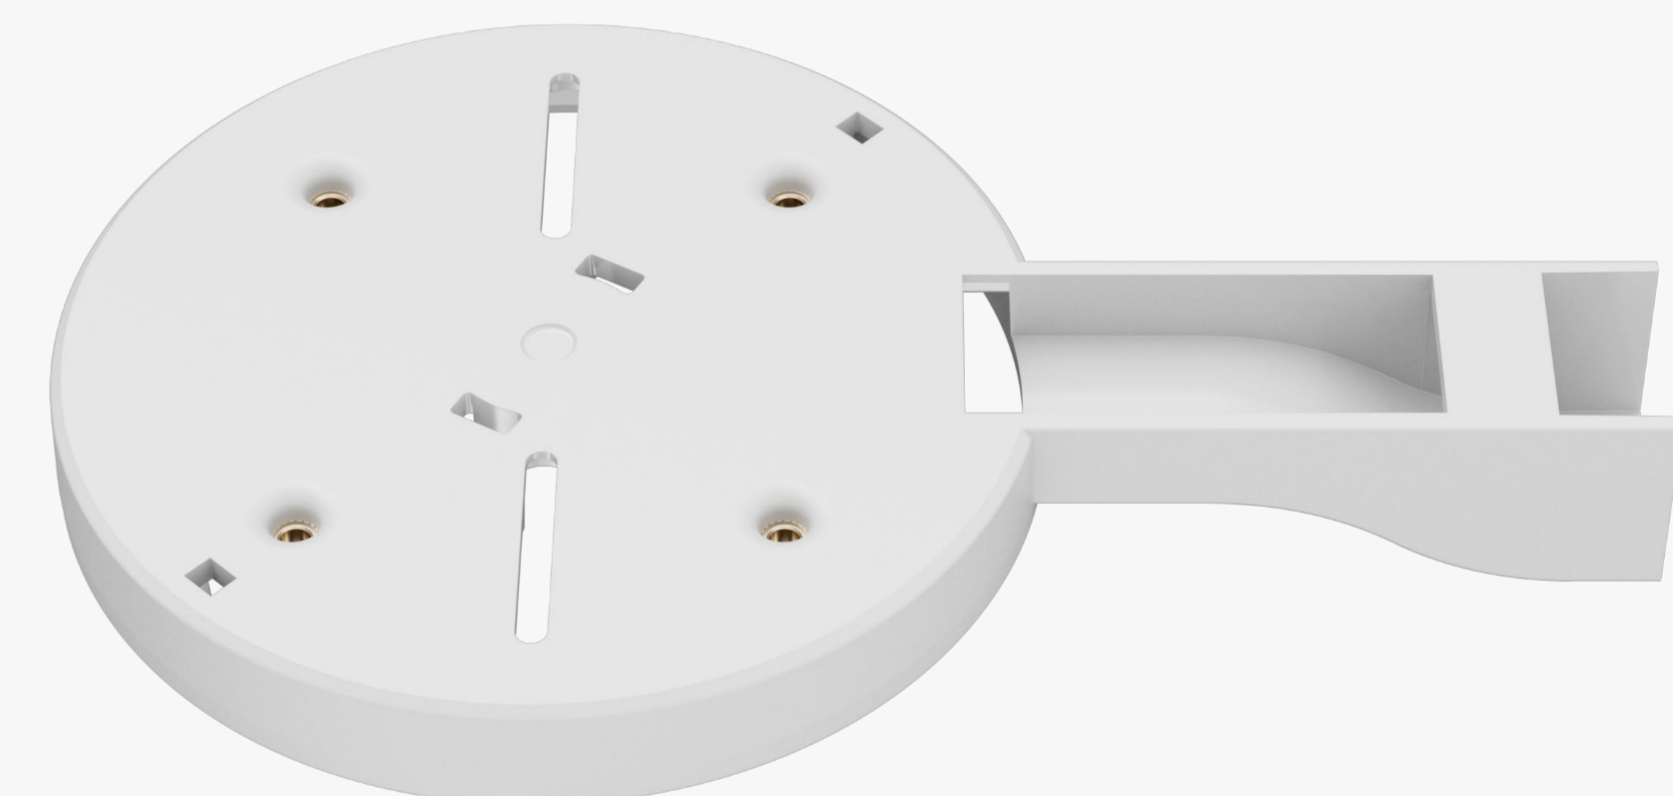

CableTrunk is an accessory designed for mains-powered FireProtect 2 AC detectors. It's a plastic connector for neat-looking power wiring that blends the detector into a standard cable trunking. Using CableTrunk is ideal when it is impossible to run wiring inside the walls since the connector allows for lateral power wiring.

Four positions to fix the detector for clear visibility of LED indicators

Minimalistic design in a compact size with effortless installation

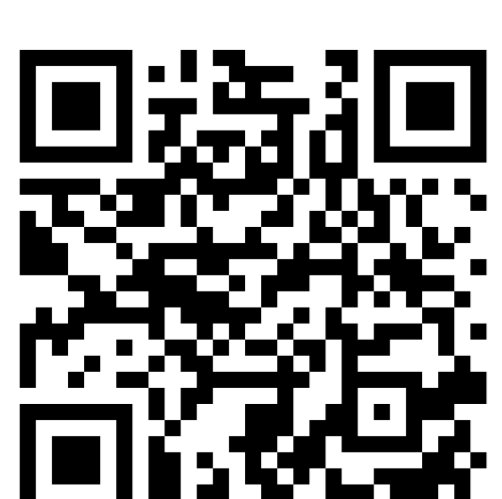

Latches to attach CableTrunk to the mounting panel for convenient fixing with screws afterward

Effortless cable routing to WAGO 221 connectors

The accessory is sold separately from the FireProtect 2 AC detectors.

Compatibility	Enclosure	Installation	Complete set
All FireProtect 2 AC detectors	<p>Color white, black</p> <p>Dimensions 144.7 × 89.3 × 18 mm</p> <p>Weight 33 g</p> <p>Material Polycarbonate</p>	<p>Operating temperature range from -25 °C to +60 °C</p> <p>Operating humidity up to 80%</p>	<p>CableTrunk Installation kit Quick start guide</p>
