

MSR 320 Conventional Detector Base with Relay

www.boschsecurity.com

The MSR 320 Conventional Detector Base with Relay can be used to mount detectors from the 320 Series. The MSR 320 is provided with an integrated relay that has NO/C/NC contacts for switching applications (e. g. dampers, door holders, etc.). The detector unit can be protected against unauthorized removal with a variable locking bar.

Notice

For EOL resistance refer to fire panel instructions.

Mounting notes for the MSR 320

- The bases are prepared for surface cable feed at four positions with prepared knockouts.
- Flush mounting cable feed occurs through the base center.
- Keep the shielding wire as short as possible and isolate it.

Technical Specifications

Connections	Power supply (0 V, +V) a1/a2, b1, b2 C-point Shielding Relay (NO, C, NC)
Relay contact load	1 A @ 30 V DC
Housing material	ABS (Novodur)
Housing color	similar RAL 9010
Dimensions	Ø 120 x 22.7 mm
Weight	82 g
